2 of 2 people found the following review helpful. A must read for Snubby Revolver Users By Raymond M. Outstanding book. Many good points for concealed carry of any firearm with an emphasis on the snub nose revolver. I don't

understand some of the negative reviews. The anecdotal stories liven up the book and provide real world experiences to amplify certain points. 4 of 4 people found the following review helpful. Read before you buy any "fad" auto. By Bassman481 For anyone considering concealed carry this book is a must read. Researched and backed up with numerous examples, statistics show over and over while "5 for sure " is so much better than 10 or 15 that can't be counted on. Also gives tips on when to shoot, how to practice and what types of ammo to use. 4 of 4 people found the following review helpful. One of the best books on defensive firearm. By James Really hits the mark about being oriented for real people and not "ninjas", but at the same time not being "too basic" in its information. Loads of useful information even if you never carry a snub nosed revolver.

In this book, former CIA operative and Combat Handguns columnist Ed Lovette pays homage to the short-barreled revolver, or snubby, holding it up as the timeless standard in concealed carry, backup and extreme close quarters (ECQ) defensive weapons. He addresses the four most common complaints about the snubby – grip, front sight, trigger and ammo capacity – and presents viable ways to remedy those issues based on his personal experience. Lovette devotes the second half of the book to defensive tactics, running the gamut from basic personal defense to strategic planning for extraordinary situations such as surveillance and carjackings to considerations specific to the use of the pocket revolver. This book is a must for anyone seeking objective, practical insight into the snub-nose revolver's enduring value.

About the Author Ed Lovette is a retired CIA paramilitary operations officer. He was also a captain in the U.S. Army Special Forces and is a 10-year law enforcement veteran. He has a long association with Combat Handguns magazine, for which he currently writes the Last Shots column.
