Huff I enjoy this book for the way it shows me what various kitchen gear is for, and how and what to cook with it. The price I got it at made it a great deal for me, as I enjoy cooking and like to discover new techniques for the kitchen. I did remove one star because I just couldn't get away from feeling like Sur La Table was using this as an advertisement for stuff sold in their store, however. 2 of 2 people found the following review helpful. From Publishers Weekly This globe-trotting collection from the Seattle-based cookware chain Sur la Table uses cooking equipment as its inspiration. Authored by Simmons, who writes for Food Wine and Cooking Light, this book recognizes that having the most suitable tool is critical to fun and successful food preparation. In the opening chapters, Simmons outlines the basic items a home cook should stock, like a peeler and whisk, before moving on to more sophisticated tools, e.g., a karahi (an Indian wok) and mattone (an Italian terra cotta press). From there, the book is organized by implement: a recipe for a chef's torch, for example, is Roasted Asparagus and Tomatoes with Bubbling Mozzarella; a pommes anna pan produces, well, Pommes Anna with Herbs and Mushrooms. The recipes appeal to a new cook with their precision, so homemade crepes or fresh sushi will seem accessible, especially with the most suitable tool at hand.
