Great book!1 of 1 people found the following review helpful. Clear and accurate descriptions of WWII German war items.By Robert RussellCovers the collectibles very well, but I thought the prices stated were not what collectors get in my area, Nice pictures, and the descriptions of the items was very helpful. Very comprehensive

The rise and fall of Germany's Third Reich is one of the most studied, investigated and collected episodes of military

history. A reign of terror that rose to near world domination during the 1930s and early 1940s, Adolph Hitler's Germany continues to fascinate generations of scholars and students of history alike. The Third Reich's insatiable drumbeat of pageantry and propaganda produced countless uniforms, insignia, medals, flags, daggers, swords, and headgear, comprising one of the most desired categories in all of military collectibles to study, understand and own. Groundbreaking in scope and execution, Third Reich Collectibles features more than 1,300 color images with descriptions and values for: Uniforms Helmets Headgear Flags Badges Membership pins Patches Armbands Firearms Blades Equipment Paper IDs Signage And more associated with the military and paramilitary groups of the Third Reich Throughout the book you'll also find historical background information and period photographs capturing everyday Nazi Germany.

About the Author Chris William, a writer for Military Trader magazine, is one of the leading authorities on Third Reich collectibles in the country, having been a collector for 50 years. He lives in Appleton, Wisconsin.
