before purchasing it in order to gage whether or not it would be worth my time, and all praised Tomart's Price Guide to Character and Promotional Glasses:

The only reason it didn't get a 5 out of 5 stars from me is due to a lack of a full description on some of the glasses and I've also encountered a few glasses that this guide still did not contain, even with the large number that are listed. Other than that, this guide was extremely helpful and I would recommend it to anyone collecting Character/Promotional glasses.0 of 0 people found the following review helpful.
