Hutton Wilkinson : Tony Duquette Jewelry before purchasing it in order to gage whether or not it would be worth my time, and all praised Tony Duquette Jewelry:

It is without a doubt one of the most beautiful books I have seen with incredible pictures of amazing and one of a kind pieces of jewelry that are each truly works of art. Wilkinson's text is wonderful as always and no expense is spared in the detail of each page. It's a pleasure to admire the work of Wilkinson and his late business partner Tony Duquette. Once again Hutton Wilkinson demonstrates that he has the eye, skill, and talent to create something that will last forever. This is NOT a coffee table book as much as I think it to be a work of art just as the photographs of some of the most incredible jewelry captured within these pages is revealed in a tasteful and pleasing manner. Highly recommended!1 of 1 people found the following review helpful. Well Worth The MoneyBy Britt Le BonzoThis book is a good value for the money. Lavish photography - interesting backgrounds. You can't compare this jewelry with something produced by a master jeweler such as Lalique. A lot of the pieces look kind of thrown together and primitive. Some of the massive rock chunk

necklaces look like a refined "Flintstones" piece. Mr. Wilkinson is a delightful, flamboyant eccentric and raconteur. His books are always entertaining and informative. There is a gorgeous emerald and pearl necklace on his website that should have been included in this collection. A few pieces are extraordinary - many of the pieces are big and colorful, but not especially unique. 0 of 0 people found the following review helpful. fantastic, organic baubles rendered in exotic jewels are magical ...By Fritzie BlueTony Duquette is not a household name, but he should be. His whimsical, fantastic, organic baubles rendered in exotic jewels are magical objects of fantasy. It was interesting as well to read about his career as a set and costume designer for stage and screen, not to mention his glorious houses. Kudos to the fabulous Hutton Wilkinson for keeping Mr. Duquette's magnificent creations alive via this book, and Mr. Wilkinson's own works of art.

The magnificent one-of-a-kind necklaces, brooches, bracelets, and rings Tony Duquette created for friends and clients such as the Duchess of Windsor, Liza Minnelli, Elsie de Wolfe, and Duquette's wife, Beegle, instantly became highly desirable collector's items and are found in museums and private collections around the world. Today, Duquette's protégé and business partner, Hutton Wilkinson, continues that remarkable legacy with his own Duquette-inspired one-of-a-kind pieces, sold through specialty stores and jewelers. Tony Duquette/Hutton Wilkinson Jewelry presents the most spectacular, jaw-dropping pieces by both artists, whose belief that "more is more" is reflected in pieces set in 18-karat gold and dripping with precious and semiprecious stones that recall the splendors of the great courts of Renaissance kings, Chinese emperors, and maharajas. This precious luxury edition, with its gold foil stamping and gilt-edge pages, itself resembles an exquisite jewelry box, tempting all to peek inside and discover untold treasures. Praise for Tony Duquette/Hutton Wilkinson Jewelry: "A lavishly illustrated jewel box of a tome." —Los Angeles Times
