What I'm trying to do with this book is give coaches as much information as possible to be a complete coach. What drills to use, how to handle a pitching staff, how do I incorporate baserunning into practice and many things I slowly learned coaching baseball. This book was put together in the hopes of saving a lot of trial and error by youth and high school coaches who may have some questions in a few areas, and to give insight into what it takes for your child or players to get to the college level or beyond. This book explains in detail what I have learned over 25 years of coaching the greatest game ever invented. This book is for all levels 10-20 years old. It will explain what it takes to put together a solid practice plan, offensive and defensive drills and strategies, coaching all 9 positions with daily fundamentals and drills, baserunning, nutrition, and strength and conditioning outlines. How do I keep a practice interesting? How do I coach my catchers if I never played catcher? What do you do for outfielders at practice? How do I defend bunts and first and third situations? What do college coaches look for in my high school player? How do I coach pitchers? and what is the best way to deal with parents? This book will answer questions that I wished I had known I started out coaching baseball.
