Charming Book!By Patricia Cummings"Toys Remembered" is a composite of short non-fictional stories written by men who were asked to comment on favorite toys and games enjoyed during their childhoods. This book provides a look at the experience of being a boy via photos, as well as

poems and quotes from famous poets and writers such as Robert Louis Stevenson, Mark Twain and John Greenleaf Whittier. If anyone enjoyed "Dolls Remembered" by this same author, they are sure to want to acquire this companion book, published in the same size. Marie Dries Christensen dedicates the book to her grandchildren so that "the ancestral voices will remain through the years" in the accounts written by their ancestors including their "Daddy" and grandfathers. Generously, the author donates all royalties to the Down's Syndrome Association of Northern Virginia. This is a lovely book! 1 of 1 people found the following review helpful. Charming! By LinusBubba Books Charming, witty, and packed full of nostalgia. A must-read for anyone still in touch with their inner child! Nice quick reads, too. 1 of 3 people found the following review helpful. Who cares! By Morton A. Hirschberg Even the most ardent toy collector would be disappointed with this book. The stories are written by people who tell of their favorite toy. Who cares.

In this companion book to *Dolls Remembered*, men reminisce about the boyhood toys and games that still hold a place in memory.
