**W. Erkelens, C. Dumortier, Christine Lahaussais, van M. Aken-Fehmers : Vases with Spouts: Three Centuries of Splendour (Dutch Delftware - History of a National Product)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Vases with Spouts: Three Centuries of Splendour (Dutch Delftware - History of a National Product):

1 of 1 people found the following review helpful. Vases with SpoutsBy L. EckmannBeautiful large format book with numerous high quality illustrations and photos but buyer beware. Details state language is English but text is in Dutch with some but not all photo captions in English.

Delft earthenware is widely known by the mostly spectacular flower vases with spouts. From about 1680 these vases, also called tulip holders, were put on the market in all colours, sizes and get-ups. In this publication the significance of the flower holder in the past and the future will be discussed and about 150 examples of these unique Delft, Frisian and other flower holders are described and illustrated.
