Harriett Swedberg, Robert W. Swedberg : Warman's American Clocks Field Guide before purchasing it in order to gage whether or not it would be worth my time, and all praised Warman's American Clocks Field Guide:

2 of 2 people found the following review helpful. An interesting little pocket sized book with BW photos but little else.By Erich MopsmeisterThis tiny book is a classic case of "If I had been able to see the book first I would never have purchased it".The book is comprised of small, bw photos on tiny square pages with very brief notes as to type, maker and random prices. Because of the size and binding, actually looking at the pictures requires cracking the book open wide to see each photo and read the description. It's a cute little miniature book best suited to someone who has little to no knowledge of antique clocks. It's ok as a starting point but by no means is it a comprehensive reference book.1 of 1 people found the following review helpful. Fun little reference guide to page throughBy ReviewerFun little reference guide to page through. I wouldn't exactly consider this a book I'd take with me to value clocks. It's just a fun read to learn a little big about clocks. It includes very cheap clocks all the way up or ones worth five figures. Like others have said, you need to note that this is a tiny "pocket reference" book. It only includes small black and

white pictures.0 of 0 people found the following review helpful. Five StarsBy Deb MSuper informative.

This guide offers detailed photographs and current pricing information for grandfather, wall, classic, shelf and novelty clocks. It also features an overview of American clock types and a brief history of clock making.

About the AuthorRobert and Harriet Swedberg have been publishing books about antiques for more than 25 years, including such titles as Encyclopedia of Antique American Clocks, American Clocks Clockmakers, American Oak Furniture Styles, Price Guide to Antique Clocks, and Encyclopedia of American Oak Furniture. They travel throughout Europe and the United States to photograph, identify, and research values for antique clocks. Robert and Harriet Swedberg share their knowledge through conducting seminars, teaching classes, and lecturing and exhibiting at antique shows. They live in Moline, Illinois.
