Susan Bagdade, Al Bagdade : Warman's American Pottery Porcelain (Warman's American Pottery and Porcelain) before purchasing it in order to gage whether or not it would be worth my time, and all praised Warman's American Pottery Porcelain (Warman's American Pottery and Porcelain):

Everything from the Kitchen but the SinkBy Marlene R.This is an OLD book that I own. is really behind on asking me to review it now...TEN years later!I still own this though and it is indispensible for checking out prices on everyday items that you would find in Estate Sales, flea markets, garage\yard sales, etc. It doesn't carry everything that you can think of, but I would say at least 90% of the items that are around.Get the newest version of course. Mine is ten years old.0 of 0 people found the following review helpful. Not quite as I expectedBy SAB 43Book has a lot of interesting facts but I would have like to see more colored pictures. When you are trying to match up items, not having a colored picture to compare, makes it much more difficult.0 of 0
