**Ken Farrell : Warman's Disney Collectibles Field Guide: Values And Identification (Warman's Field Guide)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Warman's Disney Collectibles Field Guide: Values And Identification (Warman's Field Guide):

1 of 1 people found the following review helpful. Disney collectables By C.Kelly I did not give this a full star rating because the book wasn't as it was described. The description said there were other Disney characters listed in the book, but I found it to be mostly Mickey Mouse and the rest of the book proved to be useless for my purpose. The supplier sent it in a timely fashion and the product was as described other than the contents. 0 of 0 people found the following review helpful. Disney Fans By Cathy Good book if you are collecting Disney items and want to know more about them. Great as a reference book if you ever want to sell Disney collectables. 0 of 0 people found the following review helpful. Four Stars By Customer Use all time

Mickey Mouse and the gang are the darlings of the collectibles world, boasting an extensive variety of collectible products. This colourful and portable guide to Disneyana allows collectors of vintage and modern Disney items to: learn more about the world of Disney through interesting historical notes; access 500+ colour photos for identifying and assessing their own collectibles; and check prices and descriptions on the go at stores, conventions - anywhere the collectibles are. You'll find Mickey Mouse Watches, Donald Duck lunchboxes, rare Disney comic books and more in this guide for collectors on the go!
