Since 1991, this annual publication has been setting the standard for up-to-date reference guides devoted to watches. At over 500 pages (the largest volume yet), Watches International Volume VI showcases all the latest watches from around the world, from every major designer, including Audemars Piguet, Bulgari, Chopard, Ebel Longines, Omega, Patek Philippe, and TAG Heuer. Several hundred beautiful and meticulous full-color photographs not only show the watches' style and exquisiteness, but also—and perhaps most importantly—the watches' details such as movements,

functions, case, dial and shape. The text gives an overview of each of the new watches' histories. Technical descriptions, most with retail prices, make this a must-have reference for everyone who loves timepieces personally or needs to know about them professionally. This is the most comprehensive and current guide one can buy.

About the Author Tourbillon International has published five consecutive volumes of Watches International and remains an expert in the field.
