The cost is somewhat high but if you want to get excellent pictures of a watch you're interested in this is the book. If you have plenty of money, maybe you're the type that the really small details, of the making of the watch in question, are not as important to you as the general appearance, of the watch on your wrist, and that's fine. But if you're a serious collector, you might find all the little intricate about the watch interesting, and maybe, even more important than just the overall looks, this book does a pretty good job of getting you some of those specifications. Like crystal type, movement type, clasp style etc. It's easy to sit with a cup of coffee or a drink, relax and just read and look at great sharp pictures of something you may take a keen interest in. You can easily get 10 to 20 hours out of relaxing enjoyment out of this book, so even if you had to buy it at full price, this book is a really worthwhile investment. Even better if after you have your fill of it, you pass it on to a friend that shares the fascination

of watch history and nice watches. Well worth it 0 of 0 people found the following review helpful. Glossy pictures but little else
By Dom Miliano While this book is heavy on pictures (and just heavy), it lacks some interesting brands and it doesn't have prices (even suggest retail helps establish a base line). There are better books on watches on the market but the price is low enough to make it (for me) not all bad. By Christian Nielsento be honest the book is filled with wonderful color pictures and descriptions of the watches. this is a good book to have for reference. I do prefer wristwatch annual as they include the prices. but for the money tis is a good book for someone who either collects or appreciates fine watches. a very nice overview

Now in its 7th edition, *Watches International* has been setting the standard for up-to-date reference guides devoted to luxury timepieces since 2000. At over 500 pages, *Watches International Volume VII* showcases the latest watches from around the world, from every major watchmaker including Audemars Piguet, Breguet, Bvlgari, Chopard, Ebel, Longines, Patek Philippe, TAG Heuer, and Zenith. Hundreds of beautiful and meticulous full-color photographs show not only the watches' style and exquisiteness, but also—and perhaps most importantly—the details of their movements, functions, cases, and dials. The text gives an overview of each of the companies' histories. Technical descriptions make this a must-have reference for everyone who loves timepieces personally or needs to know about them professionally.
