**Q. David Bowers : Whitman Encyclopedia of Obsolete Paper Money, Volume 1** before purchasing it in order to gage whether or not it would be worth my time, and all praised Whitman Encyclopedia of Obsolete Paper Money, Volume 1:

3 of 3 people found the following review helpful. Five StarsBy D. SchlegelGreat reference book.1 of 1 people found the following review helpful. What kind of dollar bill is that?By DaveWhat kind of dollar is that you found. I have never seen one like, Now a book that will show you the different types of United States currency and no longer in service.0 of 0 people found the following review helpful. Five StarsBy CustomerGreat!

The Whitman Encyclopedia of Obsolete Paper Money is a multiple-volume study of currency issued from 1782 to 1866, before the modern era of National Banks and the Federal Reserve. Over the course of these decades more than 3,000 state-chartered banks issued their own paper money. In this magisterial set of standard references, the “Dean of

American Numismatics,” Q. David Bowers, has compiled decades of research from 18th- and 19th-century bank reports, contemporary newspapers, and other primary sources. He gives the history of every state, every town and city, and every bank that issued this uniquely American currency. Each note is studied, and thousands are pictured in full color, with information on grading, rarity, values, significant auction results, advice for collectors, and more. The Whitman Encyclopedia of Obsolete Paper Money is a project of grand scope, a gathering of stories about our nation—from small town to big city, from the early days following the Revolution to the tribulations of the Civil War. It paints a beautifully detailed landscape of America and its early money. Volume 1 is the beginning of the journey: an introduction to obsolete paper money and an overview of the hobby. “Bowers’s accomplishments in the field of numismatics are legendary. Every serious collector and dealer of obsolete paper money will find this vital reference the backbone to his or her collection or business.” — C. John Ferreri, numismatic researcher and historian
